1. TUNGSTEN CARBIDE: All seals are offered in TC. We have recently produced TC components for the Ul and Votator® SSHE for specialty applications (Peanut Butter).

2. FEP O-RINGS: All o-rings [Metric or Standard] are offered in EPDM, FKM/FPM, and Silicone core materials. These O-Rings are Rated at -75F to 400F. Available in 50 or 90 Shore A Hardness. Therefore, all sealing points that rely on o-rings can be converted for Hi-Temp/Harsh applications.
